Open House at DGL's Maumee Office

Maumee, Ohio, February 13, 2007 – DGL Consulting Engineers has scheduled an open house for February 15 from 3 to 7pm at its Maumee facility to introduce customers, friends and business associates to the features of the new office. Of specific importance is the open floorplan within the office that is supportive of the collaboration that is typically required on most projects undertaken by DGL. The new office location is centrally located amongst DGL's current service area and conveniently situated just seconds from the Dussel/Salisbury Road Interchange with US-23/I-475.

DGL Consulting Engineers, LLC is a consulting engineering firm located in Maumee, Ohio, that specializes in all aspects of the transportation/traffic engineering industry, as well as civil and structural engineering to support private institutional/industrial/commercial/residential development throughout the tri-states region. Founded in 1926, DGL is proud of our 80 year history of providing creative solutions to our customers' most difficult engineering challenges. For more information: www.dgl-ltd.com
